Aurora Quay Berth Allocation Plan 2026

This plan sets out how the 1,200 berth-hours available each week at Aurora Quay are shared between vessel classes, and what crews do when something goes wrong.

Weekly allocation

The weekly berth-hours are allocated as follows:

- Passenger ferries: 480 berth-hours
- Fishing fleet: 360 berth-hours
- Cargo coasters: 240 berth-hours
- Maintenance and dredging: 120 berth-hours

Unused ferry hours are released to the fishing fleet at 18:00 on the previous day.

Berth rules

- Berth 1 is reserved for passenger ferries between 06:00 and 22:00.
- Berths 2 and 3 take the fishing fleet; vessels over 24 metres use Berth 3 only.
- Cargo coasters use Berth 4 and must give 12 hours' notice of arrival.

Fees

The standard fee is 85 euros per berth-hour. Fishing vessels registered in Aurora pay 60 euros per berth-hour.

Emergency procedures

If fire is reported on a moored vessel:

- Sound the quay siren (three long blasts).
- Clear Berths adjacent to the vessel.
- Call the harbour fire team on channel 16.
- Muster all quay staff at the North Gate.

If an oil spill is seen, deploy the boom stored at Berth 4 and inform the harbour master within 15 minutes.
